Adult Cats Make GREAT Companions!

By Lisa Bielik

I have volunteered at Second Chance for a total of 7 years. It breaks my heart to say that some of the same lovable cats have been at the shelter since the first time I walked through the door and are still patiently waiting for their forever home. Take Janey for instance – all she wants is to be petted on her head and hear her name called – or Marley, who had to have an eye removed due to a tumor – or Buddy, who loves to snuggle up next to you while he naps. These cats all deserve loving homes, but sadly, are overlooked because they are adults.

I have two adult cats of my own and, let me tell you, they sure do keep me on my toes! Frankenstein and Lou (who was adopted from Second Chance over a year ago) are both around 3 years old and very lovable, playful cats. They get into the occasional mischief and love to cuddle with my husband and me when we watch television. My parents also have an adult cat, Whitey (also adopted from Second Chance), who is about 4 years old and a terrific companion. He was abandoned by his previous “family” when they moved and left him to fend for himself. Having volunteered at the shelter for so many years, I often see so many people come to look at cats and overlook the adults simply because they think that only kittens can provide entertainment and cuteness. This could not be further from the truth!

On the next few pages, you will get to meet some of our terrific adult cats here at the shelter. Please consider one of these wonderful, loving cats as a forever addition to your family! All it takes is a phone call to the shelter to schedule a time and date to visit. Come see for yourself all of the great qualities these special animals have to offer!
